

## **E-Delivery of Non-Fidelity Investments (Fidelity) Shareholder Materials**

On January 29, 2010 Fidelity Investments (Fidelity) enhanced its electronic delivery program to include non-Fidelity shareholder materials. Your clients who are currently enrolled in electronic delivery of 'Trade Confirmations and Related Prospectuses' will begin receiving confirming prospectuses for non-Fidelity securities electronically. Clients enrolled in electronic delivery of 'Prospectuses and Other Financial Reports' will begin receiving annual prospectuses, annual reports, semi-annual reports and other shareholder information electronically instead of via U.S. Mail.

### **Benefits:**

- **Save space** - Your client's mailboxes will not be cluttered with shareholder reports.
- **Save time** - Your clients will save time by not needing to enroll for e-delivery of these materials at a separate website.
- **Save trees** - Better for the environment.

### **Important Notes:**

- Clients already enrolled in electronic delivery of these document types will automatically begin receiving these documents electronically, no action is needed.
- Not all issuers make electronic materials available electronically. In these cases the paper version of these documents will be delivered.

### **Enrolling for Electronic Delivery**

Log in to [www.Fidelity.com](http://www.Fidelity.com) go to Account & Trade => Electronic/Paper Mail Delivery. Update the Prospectuses and Financial Reports section to View Online.
